

KPS Global® INSTAWALL™ panels can be used as an alternative solution to traditional construction methods in areas of buildings, stores, warehouses, etc. Our INSTAWALL™ panels provide an alternative that is fast, streamlining the construction processes resulting in a reduction of trades needed, improved construction timelines, reduced job site waste, as well as other benefits.

ADVANTAGES OF UTILIZING INSTAWALL™ PANELS

KPS Global INSTAWALL™ panels provide a more efficient solution for projects, by streamlining the construction process and providing a nice, clean look for the store and offers the following advantages over traditional stick-built methods:

- EASE & SPEED OF INSTALLATION
- REDUCES BTU LOAD ON HVAC
- ELIMINATES NEED FOR FRP IN BATHROOMS & PREP AREAS
 - NO YELLOWING
 - NO NEED TO REPLACE
- CLEANLINESS
- REDUCTION OF CONSTRUCTION WASTE
- REDUCES NOISE
- FEWER TRADES AT JOBSITE
- LIVE LOAD UP TO 10 #/SQFT FOR TOPS

APPLICATIONS OF INSTAWALL™

KPS Global INSTAWALL™ panels are a versatile solution that can be utilized for a variety of applications including:

- PREP ROOMS
- PARAPET/SOFFIT WALLS
- OFFICES
- PHARMACY ROOMS
- RETAIL SPACES
- MACHINE ROOMS
- BATHROOMS
- OPTICAL CENTERS
- DRY STORAGE ROOMS
- HEARINGS CENTERS

EXAMPLE INSTAWALL™ APPLICATION

KPS Global INSTAWALL™ panels can be used as a solution in various situations. A common concern among customers is mold and yellowing from FRP which not only provides an unclean look but also poses a risk from a food safety standpoint. Using INSTAWALL™ panels for chase walls located in prep rooms can reduce this issue and provide a more sanitary solution. INSTAWALL™ panels can be used in other customer facing areas: waiting rooms, offices, bathrooms, etc. The INSTAWALL™ panel can be customized for various applications depending on individual customer project needs.

WHY KPS GLOBAL?

KPS Global is an expert in utilizing panels to provide innovative solutions for a variety of applications. Our versatile product offering can be customized to meet any project specifications. Leveraging in-house design and engineering teams and years of experience to create high-quality panel solutions. With five manufacturing facilities strategically located across the country, we have the scale and capacity to execute any size project.

At KPS Global, our goal is to provide solutions to our customers. Our INSTAWALL™ panels are specifically designed to solve the challenges of our customers and provide a more efficient solution to expediting the construction process. At KPS Global, we are committed to providing innovative solutions for our customers. With an experienced team of employees combined with high quality product offerings, you can rest assured knowing you will get the right solution by choosing KPSG.
